

— Cut on solid lines - - - Fold on dashed lines  Glue tabs go inside

1. **Color it in** if you like, then cut along the solid lines, tabs included.
2. **Score the dashed lines** with a ruler and pen so they fold cleanly. Fold so the letters face out.
3. **Poke a hole** through the dot on the TOP and BOTTOM squares. Grown-ups, help with this step.
4. **Glue the tabs** inside the cube one at a time. Close the top last.
5. **Push a short pencil** down through both holes so about 3/4 inch (2 cm) of the point sticks out the bottom. Tape it in place.
6. **Spin it** on a hard table. Rules and more ideas at **Dreidel.com**.
